Laravel: Image Resize

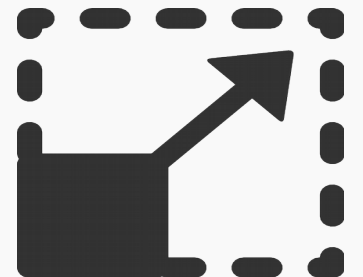

Laravel: Image Resize

1. We are using <http://image.intervention.io/use/url>
2. Install packages(**intervention/image** and **intervention/imagecache**)
3. Publish package configuration
4. Add imagecache route name
5. Define source directories
6. Add Templates
7. Create custom filter

Install packages

php composer.phar require intervention/image

php composer.phar require intervention/imagecache

Publish package configuration

php artisan vendor:publish

```
prototype@prototype-LIFEBOOK-AH531:~/www/PHP-Frameworks/exercises/group2/project$ php artisan vendor:publish
PHP 7.0.22-0ubuntu0.17.04.1 (cli) (built: Aug  8 2017 22:03:30) ( NTS )
(Which provider or tag's files would you like to publish?:
Ze[0] Publish files from all providers and tags listed below
  [1] Provider: Fideloper\Proxy\TrustedProxyServiceProvider (c) 1999-2017, by Zend Technologies
ro[2] Provider: Illuminate\Mail\MailServiceProvider apt-get install php7.1-gd
Re[3] Provider: Illuminate\Notifications\NotificationServiceProvider
Bu[4] Provider: Illuminate\Pagination\PaginationServiceProvider
Re[5] Provider: Intervention\Image\ImageServiceProviderLaravel5
E[6] Tag: laravel-mail age php7.1-gd
E[7] Tag: laravel-notifications glob 'php7.1-gd'
E[8] Tag: laravel-pagination by regex 'php7.1-gd'
r> [ ] prototype-LIFEBOOK-AH531:/home/prototype# [ ]
```

Add ImageCache Route

```
/*
|-----
| Name of route
|-----
|
| Enter the routes name to enable dynamic imagecache manipulation.
| This handle will define the first part of the URI:
|
| {route}/{template}/{filename}
|
| Examples: "images", "img/cache"
|
*/

'route' => 'imagecache',
```

YourAppFolder/config/imagecache.php

Define Source Directories

```
/*
|-----
| Storage paths
|-----
*/

'paths' => array(
    'storage/sample',
    'storage/sample-images',
    public_path('upload'),
    public_path('images'),
),
```

YourAppFolder/config/imagecache.php

Add Templates

```
'templates' => array(  
    'small' => 'Intervention\Image\Templates\Small',  
    'medium' => 'Intervention\Image\Templates\Medium',  
    'large' => 'Intervention\Image\Templates\Large',  
    'bar' => 'App\Filters\CustomImageSampleFilter',  
) ,
```

YourAppFolder/config/imagecache.php

Usage in view

resources/views/admin/samples/index.blade.php

```

```
